

240.65**Coordination with Iowa Extension Programs****Overview**

| | |
|-------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Introduction | The Program Director of the Iowa EFNEP Program and the Family Nutrition Program (FNP) meets on a regular basis with Nutrition Services Coordinator for the Iowa WIC Program to share information and resources. |
| Written agreement | An agreement between the two state Extension programs and the state WIC program was developed to formalize collaboration activities and referrals between programs. A copy of the agreement is on file in the state WIC office. |
| Coordination of nutrition education activities | Nutrition education activities completed as part of EFNEP or FNP participation may be counted as completed low-risk second contacts for the WIC Program. See Policy 240.55 for more information. |
